#### ABOUT TECHPAULIN PLUS

To enhance the range of Techpaulin Cross Laminated Film, Time Technoplast Ltd. has developed the next range of Cross Laminated Films called Techpaulin Plus. It is a Multi Layer Multi Axis Oriented Cross Laminated Film, Reinforced with special web like structure between the Cross Laminated layers providing exceptional strength, tear resistance and ultra violet stabilized.

#### ABOUT TIME TECHNOPLAST LTD.

Time Technoplast Ltd. is a multinational Polymer Product company offering innovative production solutions for challenging applications. Multi Layer Multi Axis Oriented Cross Laminated Film (MOX) is also one such product has excited customers and has received fabulous response.

**TECHPAULIN PLUS IS RELIABLE, MATCHES HIGH QUALITY STANDARDS AND FINDS APPLICATION IN AN EXTENSIVE RANGE.**

### Techpaulin plus

- Multilayer multi axis Oriented X cross laminated film
- Superior technology enables film to have excellent lamination and weathering resistance
- Excellent weathering resistance. Does not shred or crack easily. Its 5 times more durable
- As the film has got exceptional strength, it is much lighter in weight
- Side reinforcement are done by ultrasonic welding technology, excellent weld property
- Post service life, product is 100% recyclable, environmentally sustainable and eco friendly
- Excellent water barrier property
- Good weathering resistance even on exposure to sunlight
- Strong and rigid eyelets are provided on side edges, does not weaken Techpaulin
- Surface allows good printing and marking branding possible
- Excellent technology allows very fine control & tolerance of GSM / thickness
- Techpaulin is light weight and easy to handle
- Odourless and non-toxic

Standard sizes are available with Techpaulin Plus with clean and precise joints, scientifically processed eyelets with proper finish and branding.
