BRINGING POLYMERS TO LIFE

INNOVATION IS ABOUT
OVER-RIDING RISKS

FROM THE MD'S DESK

We are here to build a great company, backed by innovation and technology. A company that has achieved the highest levels of customer satisfaction, to the extent of customer delight. A great place to work, a provider of exceptionally high quality products, a company that carries itself in the market place with the highest levels of business integrity and business ethics, a company composed of dedicated, accomplished professionals, committed to serving customers. We are here to build a company, in which, we can all take immense pride.

Time Technoplast Limited is a quality and customer oriented company, with a global vision and reach. The journey of Time Technoplast started from very modest beginnings viz., a relatively small packaging company, way back in 1992. Today, we are a multinational conglomerate with a diversified product portfolio consisting of innovative polymer products, catering to growing industry segments like Industrial Packaging, Lifestyle, Automotive Components, Healthcare, Infrastructure / Construction, Material

Handling and Composite Cylinders. Our growth has been sure and steady due to the company's strong focus on quality in manufacturing process and systems, resulting in a satisfied and loyal customer base, spread across 10 countries in the globe.

From its humble origins, Time Technoplast has over the past two-and-a-half decades, reached a pre-eminent position in its market segment with 28 fully operational manufacturing facilities, strategically placed to serve its customers, across geographies. Time Technoplast envisions itself as a global player with a local presence and has constantly tried to locate its facilities nearer to its customer base.

Time Technoplast's unprecedented growth has been possible, in part, due to strategic investments from time to time, be it establishing a manufacturing plant to cater to the burgeoning customer base at strategic locations, acquisition of controlling stakes in overseas businesses or its joint venture projects for producing newer products.

Time Technoplast currently has 4,600 employees from over 10 Nationalities, truly reflecting the global character of the organization. We shall endeavour to provide a level of service that is recognized worldwide for its superiority, and known locally for our commitment to community. We have strived to be a responsible corporate citizen through our various community and sustainability initiatives, aimed at empowering the local community and espousing the cause of gender equality.

I take this opportunity to thank our valued customers, whose continued patronage and confidence in our products inspires us to extend the best of services and enables us to provide value for their money. I seek the continued patronage of our valued customers, cooperation of our employees and thank our well-wishers who have contributed to the growth of the organization.

On that note, I would like to sign off and invite you to browse through our brochure to get a first-hand impression of our expertise and reach.

Best regards,
Anil Jain

INNOVATION IS ABOUT
COLLECTIVE WISDOM

ABOUT US

Time Technoplast Ltd. (TimeTech) began its operations in 1992 with a production facility for Drums in western region of India, followed by gradual diversification and expansion at 19 locations in India and 11 locations overseas.

The company's portfolio consists of technology driven Innovative Established Products (Packaging, Lifestyle, Automotive Components, Infrastructure related products) and Value Added Products (Intermediate Bulk Container - IBC, Composite Cylinders and MOX Film).

TimeTech employs over 4,600 personnel and has operational footprints in India and overseas, in countries like UAE, Bahrain, Egypt, Thailand, Vietnam, Malaysia, Indonesia and Taiwan.

Time Tech is promoted by qualified professionals with decades of experience, who believe in working hard for the company, its customers, its suppliers, its employees and its shareholders.

MISSION

“WE DON'T MIND
SEEING COMPETITION
AHEAD OF US
SO LONG AS THEY ARE FEW LAPS
BEHIND”

CREATING VALUES THROUGH STRATE

TIME's corporate values reflect everything we do, from our ongoing relationships with customers and partners to our daily interactions with team members, across the organization. To nurture these values, we have taken it upon us, to ensure each team member...

- Understands our vision and mission.
- Implements our strategy.
- Behaves in a manner that is consistent with corporate objectives.
- Focuses on team performance.
- Maximizes his or her contributions.
- Minimizes waste and distractions.
- Regularly asks, "How am I faring on important parameters?".

OUR CORPORATE CULTURE IS
BASED ON SIX CORE VALUES:

CARING

Maintain respectful relations with customers, partners, suppliers, TIME employees and communities

INNOVATION

That makes a difference

GIC MANAGEMENT

Ensuring Values That Support Our Strategy

Adoption of these core values is essential to executing our strategy and ensuring a work environment that supports the company's objectives and inspires employees to new levels of productivity, helping them achieve their professional goals. Our customers will want to do business with no one else, our shareholders will be confident in our ability to execute on our strategies and TIME will be a fun, rewarding place to work.

LOYALTY

Work collaboratively with TIME employees, partners, suppliers and customers to solve problems and achieve goals

INTEGRITY

Exhibit honesty and integrity at all times

KNOWLEDGEABLE

Be experts in our fields

COMMITMENT

Dedicated to the success of our customers, partners, TIME employees and shareholders

HISTORY/MILESTONES

The company got incorporated in the year 1992. And since then, there has been no looking back. Below are the significant milestones of the company, from the time they got listed on National and Bombay Stock Exchange in 2007:

2007

- Acquired TPL (Tainwala Polycontainers Ltd.) second largest Industrial Packaging company in India.
- Commenced Steel Drum manufacturing at Pen (India) under JV with Mauser.
- Forayed into battery business – acquired NED Energy, in Southern India, at Hyderabad.
- Commenced production (packaging) at Sharjah, UAE.
- Launched DuroWipe and Composite Mats.

2008

- Expanded battery capacity - acquired Gulf Powerbeat W.L.L., Bahrain.
- Development and launch of innovative GENEX medical devices (Auto-Disabled Syringes, Blood Samplers and Face Masks).

2009

- Expanded battery operations in India, new facility in Western India at Panoli (Gujarat) - Industrial Packaging.
- Set up additional manufacturing facility (packaging) in Eastern India (Amta, West Bengal).
- Acquired competing business in Thailand, YPA (Thailand) Ltd – Industrial Packaging.
- Implemented prefab shelters project at Silvassa, India.
- Started HDPE and FRP/GRP pipes manufacturing unit at Silvassa, India.
- Signed Joint Venture with Schoeller Arca Systems, Netherland and launched Returnable Transit Packaging (RTP) and Material Handling Solutions in India.

2010

- Acquired Composite Gas Cylinder business in Czech Republic, Komposite – Perha, advanced production facility in Pilsen.
- Undertook expansion of manufacturing facility in Western India at Mahad – Industrial Packaging.
- Commenced manufacturing facility in Southern India at Gummidipundi (Tamil Nadu) and Western India in Ahmedabad (Gujarat)- Industrial Packaging.
- Acquisition of a mid-sized battery manufacturer in Bengaluru (India)- specialising in power sector and solar power sector.
- Time Tech acquires Plastic Product division of Solutia Inc., Europe, along with reputed brands Astroturf and Clearpass – Romania and Belgium.
- Time Tech acquires largest industrial packaging company (Yung Hsin Container Industry Co. Ltd.) in Taiwan.

2011

- Commenced manufacturing facility at Attaka (Egypt) – Industrial Packaging.
- Started Industrial Packaging units in Pantnagar and Jammu, India.
- Implemented a pilot project for Composite Gas Cylinder in India.
- Greenfield Plants rolled out from Busan (South Korea).
- Commenced Greenfield Industrial Packaging unit for IBC, Drums & Jerrycans, Jakarta (Indonesia).
- Commenced Greenfield Industrial Packaging unit for IBC, Drums and Jerrycans, Bahrain.
- Capacity expansion for high pressure PE pipes in North and East India.

2012

- Commenced GNX IBCs manufacturing units in Daman, India.
- Green field capacity expansion for Industrial Packaging Hyderabad and Bhuj (Gujarat) India.
- Green field project for Industrial Packaging products in Malaysia (Drums and Jerrycans).
- Embarked on a new & Independent manufacturing facility for Schoeller Arca Time material handling system at Talasari (Maharashtra, India).
- Setting up a new manufacturing facility for Industrial Packaging at Panoli (Gujarat) India.

2016

- Started DWC Pipe manufacturing unit at Silvassa.

2017

- Started MOX Film manufacturing unit at Panoli.
- Set up a new manufacturing facility for Steel Drums at Vadodara (Gujarat, India).

GLOBAL PRESENCE

EGYPT

Pioneering Industrial packaging company, bringing innovative products with world class technology.

SAUDI ARABIA

An established player in the field of Industrial packaging.

BAHRAIN

A Battery manufacturing company and is now a part of Time Technoplast Ltd. (Time Tech).

永信容器工業股份有限公司
Yung Hsin Contain Industry Co., Ltd.

TAIWAN

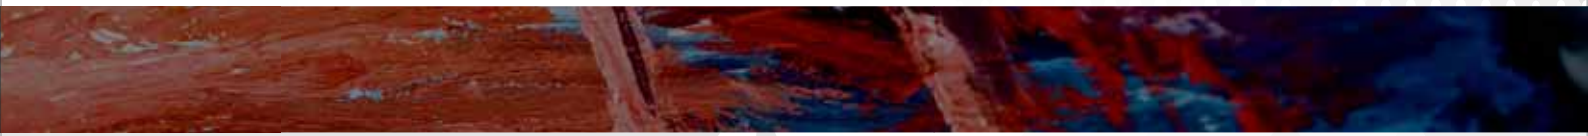

A leading industrial packaging company in Taiwan offering new generation drum packaging products.

EXEL PLASTECH
Exel Plastech Co. Ltd.

VIETNAM

A part of multinational TimeTech group, offering a comprehensive range of industrial packaging products.

Elan Incorporated FZE, Sharjah, U.A.E

UAE

An established player in the field of Industrial packaging.

TIME TECHNOPLAST LTD.
Bringing Polymers To Life

INDIA

A leading polymer products multinational company.

บริษัท แพค เดลต้า จำกัด(มหาชน)
PACK DELTA PUBLIC COMPANY LIMITED

THAILAND

Engaged in the business of manufacturing plastic containers, made from high quality polymers.

MALAYSIA

A part of the multinational TimeTech group and its portfolio consist of technically driven innovative industrial packaging products.

P. T. NOVO COMPLAST INDONESIA

INDONESIA

A pioneering company bringing innovative products in industrial packaging segment.

MANUFACTURING PLANT LOCATIONS

RESEARCH AND DEVELOPMENT

Product Development:

- Composite cylinders.
- MOX films.
- Antistatic Drums and IBC's.
- Polymer Fuel Tanks & De-aeration tanks for commercial vehicles.
- Anti Spray Mats.
- GNX IBCs.
- Multilayer IBCs / Drums / Tanks.
- Many more in the pipeline.

Process Development:

- Gas assisted injection moulding for foldable crates.
- Auto de-flashing and unloaders for blow moulding machines.
- Continuous optimization in cycle times and product weights.
- Continuous injection molding.
- Multilayer blow molding.
- Multilayer Extrusion.
- Non-permeating polymers.

Machine & Moulds Development:

- Indigenously developed blow moulding machines, including Multi layer machine.
- Assembly line for Composite Cylinders and IBCs.
- Designing blow / injection moulds with reduced cycle time and proprietary ejection systems for auto fall feature.
- Machine for MOX films.

INDUSTRIAL PACKAGING

Drums & Containers

Plastic drums / barrels, Polycans / Jerry cans are manufactured through extrusion blow moulding process out of special grades of polymers. Such packaging products are made through a fully automated continuous process without any welds or joints. They are fitted with special stoppers, plugs, bungs, inserts, caps, handles to meet specific design & performance requirements.

Coni Pails

Delivering high performance & strength, quality Conipack pails are now offered from the stable of Time Technoplast Ltd. They are a widely accepted packaging for lubricating oils, greases, paints, chemicals, edible oils, inks & resins, pharmaceutical and food products, to name a few.

With the popularity of Intermediate Bulk Containers (IBC) spreading far & wide, IBC systems are being increasingly used in newer geographies. Time Technoplast is offering specially designed Intermediate Bulk Container named GNX Bulk tainer - A Futuristic Packaging Solution.

COMPOSITE CYLINDERS

Domestic application of LPG Composite Cylinder

NEW GENERATION
LPG COMPOSITE CYLINDERS

LiteSafe Cylinders are superior alternatives to traditionally used metal cylinders. These cylinders are extremely light weight, attractive in colour and shape, rust and corrosion proof, UV resistant and most importantly are 100% explosion proof.

A range of LPG Composite Cylinders

MOX FILMS

Techpaulin Green House Application

A revolutionary industrial product, Techpaulin is Time Technoplast's attempt to redefine the plastic flexible segment. A multi-layer, multi axis oriented X cross laminated film (MOX), Techpaulin is odourless, nontoxic, recyclable, food grade and can be used for protecting, covering food grade items, as well. It is extremely light weight, yet strong. High UV property delivers better crack & weather resistance.

Techpaulin Covering Large Cargo

Techpaulin Pond Liner

Techpaulin Application As Boat Cover

INFRASTRUCTURE

They are a double layer pipe with the outer layer having corrugation and the inner layer with a smooth surface. The outer corrugated layer substantially increases the stiffness of the pipe, which enables the pipe to take same burial load, at a fraction of the weight of solid wall pipes of the same size.

The pipes are capable of handling semi-solid & gaseous effluents and has unmatched resistance to corrosive chemicals. MaxM pipes are 100% leak proof and are thus preferred for applications, such as potable water services or distribution lines, sewerage & drainage, cable ducting, natural gas distribution, irrigation, waste disposal, industrial application and offshore pipeline installation.

CSR INITIATIVES

Time Technoplast Limited is committed to upholding the highest standards of CSR. We believe in positively impacting the environment and supporting the communities we operate in, focusing on sustainability of our programs & empowerment of our communities.

Activities undertaken by the Company:

Jal Nidhi / Supply of Drinking Water to Villages:

Company has developed the product "Aqua Pack". Aqua Pack is a rigid & light weight food safety bottle in a back pack which can carry 20 liters of water comfortably. Aqua Pack is Light weight, puncture resistant & free standing bottle. Around 25,000 villagers are benefited with this initiative.

Rural Infrastructure Development:

To upgrade rural infrastructure, company is coordinating with Gram Panchayat and contributing towards the development of roads and other infrastructural facilities. Company is coordinating with the government authorities and contributing towards the development of houses for the villagers, residing near company's plants.

Promotion of Sports:

To spread the importance of sports and fitness, company has contributed and arranged various sports instruction programs and helped schools in organizing sports & cultural festivals.

Health & Medical activities:

Company has conducted health & medical related activities, aimed at improving health. Each activity organized and arranged for Villagers provides them guidance on health-related issues. Company has also arranged several blood donation camps.

Education:

Company has been espousing the cause of education by organizing various educational programs and activities for the youth, including scholarship to bright students, contests, projects, campaigns and events. Contribution has been made for the Infrastructure improvement at schools and hostels, distribution of stationery and sports items to schools, water cooler facilities etc.

OUR FOCUS AREAS:

INNOVATION IS ABOUT
BEING UNSTOPPABLE

VISION

“WE SHALL BE
SECOND
TO NONE
IN OUR BUSINESS”
