

MOVING YOUR WORLD

Time Technoplast Ltd. (TimeTech) began its operations in 1992 with a production facility for Drums in western region of India, followed by gradual diversification and expansion at 20 locations in India and 10 locations overseas.

The company's portfolio consists of technology driven Innovative Established Products (Packaging, Lifestyle, Automotive Components, Infrastructure related and Material Handling products) and Value Added Products (Intermediate Bulk Container - IBC, Composite Cylinders and MOX Film).

TimeTech has operational footprints in India and overseas; in countries like UAE, Bahrain, Egypt, Thailand, Vietnam, Malaysia, Indonesia, Taiwan and Saudi Arabia.

TimeTech is promoted by qualified professionals with decades of experience, who believe in working hard for the company, its customers, its suppliers, its employees and its shareholders.

Time Technoplast - Material Handling Division (TTL - MHD)

TTL - MHD offers a wide range of plastic Returnable Transit Packaging (RTP) and material handling solutions from India. TTL - MHD also offers a broad range of Stackable Containers, Stack-Nest Container, Foldable Small/Large containers, Plastic crates and pallets, Export Pallets, Pallets suitable for drum handling etc., to provide end to end materials handling solutions to the fastest growing sectors like Retail, Automotive, Agriculture, Processed Food, Apparels, Pharmaceuticals, FMCG, Consumer durables and Logistics, etc.

This will help the above sectors reduce handling and transport costs. These products will provide long term operational benefits, maximum efficiency and protection, optimum space utilization and provide better logistics and supply chain management.

INTEGRA/MINI INTEGRA - Stackable and Nestable Crates

FEATURES:

- New age material handling solution
- Stronger and advanced than existing crates
- Durable, versatile, cost effective
- Tamper Proof

USAGE:

Couriers/Letters, Pharmaceutical Industry, Clothing, Logistic Companies, Automobile, Engineering Industry, etc.

Easy Handling

PRELOG - Foldable & Stackable Crates

FEATURES:

- Comprehensive and sustainable product range
- Provides adequate ventilation owing to perforated base
- Easy and efficient folding

USAGE:

Vegetables, Fruits, Ice cream, Food processing, Pharmaceutical Industry, Spices and Pickles, Textile and Retail Display, Cold Storage Distribution, etc.

PRELOG VERSUS COMMONLY USED STACKABLE CRATES:

Description	Commonly used Stackable Crates	Prelog
Lifespan	0.5 to 2 years	3 to 4 years
Cost Impact	High as needs replacement every second year	Low
Hygiene	Low	High
Splinters which damage goods	Yes	No
Risk of contamination	Yes	No
Narrow dimension tolerances	No	Yes
Ergonomics	Limited	Optimised
Easy to maintain / replace broken parts	No	Yes
Perforation promotes freshness	Limitations as newspaper is used	No need of newspaper
East to clean	Not easy	Yes
Quality of raw material	Less consistent quality	High consistent quality
Marking and Identification	Limited	Logo, RFID, colour, etc.
Foldable for space saving (storage, transport)	No	Yes

Capacity	75 ltrs. Approx.	75 ltrs. Approx.

MAHAGIANT - For Higher Volumes With Ease In Transportation

FEATURES:

- Resistant to industrial solvents and can stand high temperature
- Can be stacked 1+ 5
- Space saving, standard footprint 800x600Optional wheels for easy manoeuvring

USAGE:

Seat Frames, Clothes, Pharmaceuticals Industry, Letters/Couriers, Logistic Companies, Textile, Exhaust Systems, Gear Components, etc.

Optional Wheels for Easy Manoeuvring

Efficient material handling and strong ribbed base (Diamond)

Straight sides simple stacking storage

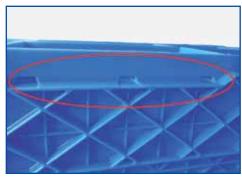

Provision for wheels for easy transport

Bigger hand holes for grip

Clean access to contents

Extra wide stability bare for secure stacking

	U86425
OD (mm)	800 x 600 x 425
ID (mm)	750 x 550 x 390
Capacity	161 Liters

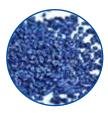

EUROFRESH

FEATURES:

- MOC Food grade polymer
 Reliable, high quality product
 Caters to multiple industries

USAGE:

Fruits and Vegetables, Pharma, Auto Ancillary, Marine i.e. Fisheries, Food Processing, Cold storage, etc.

Made of food grade polymer compound

Rounded top corners, higher strength and no corner cracks

Sturdy and

reinforced base

Smooth inside wall

Sturdy ribs on all 4 walls arrest bulging

Robust handgrip

ECO PALLET

FEATURES:

- Long term operational benefits
- Higher efficiency and protection
- Creating better logistics and supply chain
 Nestable saving storage space
 Compatible for all type of MHEs

- MOC Chemical resistant
- Inbuilt RFID provision Ready for track and trace

USAGE:

For Export as well Indoor light duty handling system

SMART LEAF PALLET - Suitable for Drum Handling

FEATURES:

- Innovative product
- Suitable for transportation of drums
- Post usage Nestable saving freight cost
- Good stackability
- Ready to use Connector locks all 4 drums near centre, thus holding it as a one cohesive unit.

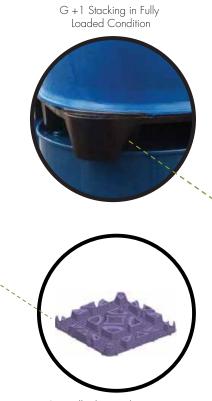

USAGE:

Used in Chemicals, Petrochemical, Pharma Industries, etc.

Drum Connector -----

Specially designed to improve stack ability

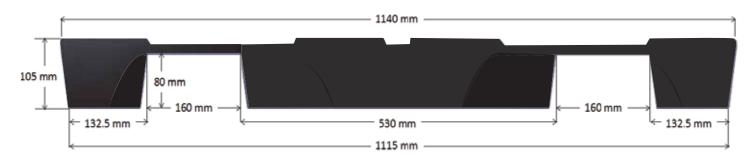

Groves Offer Maximum Stability

Special design of bottom surface ensures pallets resting on drum top surfaces and distributes load evenly

Four way pallet - forklift

Light weight pallet

Can be useful for any type of drums (plastic/metal)

ADVANTAGES:

- Optimum space utilization
- 20 pallets can be fitted in a standard 20 ft. shipping container, each pallet containing 4 drums thus accommodating 80 drums
 Does away with stretching & wrapping with safe handling by providing connector
