THE COMPANY

Time Technoplast Ltd. is a technology-driven group with core competencies in polymer processing and a leader in Industrial Packaging. Headquartered in Mumbai, with 22 production facilities at 6 strategic locations, the company offers customers value for money products. The group's business interests include Industrial Packaging, Premium Garden Furniture, Automotive Components, Lifestyle Matting, Healthcare Products and Infrastructure Products. The company, in its expansion plan, has added a product: PVC Pre-fabricated Shelters. TTL's Infrastructure Division has a Prefab manufacturing facility, and has the capacity to undertake any project from concept building to commissioning without any hassles.

INFRASTRUCTURE

Time Technoplast Ltd.'s state-of-the-art factory at Silvassa has sophisticated machines with the latest technology and is backed by highly qualified professionals, which enables it to compete with the competitors and keep updated with the latest techniques available in the Industry.

MATERIAL

The Prefab components are fabricated at the factory for easy assembling at the site. The structure is fabricated by using concrete filled sandwich type panels for wall and PPGI / GI / Plastic corrugated roof, trusses, purlins and columns made of suitable M.S. rolled/hollow steel sections. The customers have the option of either PCC, PVC on wooden flooring.

QUALITY AND TESTING FACILITIES

The Prefab Shelters are made with high-quality assurance systems and pass through rigorous tests at various stages, such as shock resistance, ball impact, flatten test, edge loading, screw holding, etc.

FEATURES AND ADVANTAGES

- Factory-made, pre-engineered structures
- Easy and quick installation, easy to dismantle and transport
- Durable, cost-effective and zero-maintenance
- Leak and rust-proof and free from fungus and termites
- Water, fire and earthquake-resistant
- Fully secured with grill and locking facilities
- Strong design to resist high wind pressures up to 150 kmph
- Very effective acoustics and maximum absorption while blended with fillers like glass wool and polyurethane which give superb insulation properties
- Modular in construction, can be expanded in the future
- High-quality interiors – comes with fans, tube lights, outside bulbs, electric casing, wiring and provision for AC
- Can withstand temperature variations, all-weather protection
- Painting: surface panels are available in regular or pre-laminated designs
- Sizes : 3 standard sizes - 6 x 3 x 3 mtrs, 7 x 6 x 3 mtrs, 10 x 5 x 3 mtrs
- Custom-built products / sizes are also available

QUALITY ASSURANCE

TTL, a quality-conscious company, adheres to total quality management to ensure that its products are flawless and guarantee the customer's complete satisfaction. The raw material is sourced from reliable and quality-oriented suppliers. The quality checking process is backed by a team of highly qualified personnel, who have extensive experience and product knowledge. Our Research & Development division works consistently to strive for excellence and add a blend of innovation and uniqueness to our product range.

USAGE

Our Prefab Shelters can be used for a wide range of applications, such as :
 Relief Camps • Car Parks • Site Offices • Portable Canteens • Security Guard Cabins • Control Rooms • Farm Houses • Sanitary Units • Mobile Shelters • Dark Room Units • Works • Shops • Laboratory Units • Hospital Units • Food Cafés • Telecom Shelters • Checkposts • Exhibition Offices and many more...

TONGUE AND GROOVE SYSTEM

WALL PANEL

TONGUE AND GROOVE SYSTEM

Our PVC Wall Panels are fitted in each other with unique "Tongue & Groove" technique. The standard size of the Panel is 1mtr x 0.3mtr. This technique is leak-proof and air-tight, which gives excellent bonding and strength to the wall made from our Panels.

FACTORY-MADE DOORS AND FRAMES

Factory-made PVC doors and frames are manufactured by TTL. These are reinforced with excellent polymeric reinforcement and can be used for homes, hospitals, offices etc. for all internal applications.

Available Sizes: 6'.3" x 2'.3", 6'.3" x 2'.6", 6'.9" x 2'.6".

PVC Openable Window: Manufactured at the plant, these windows are elegant and affordable in cost as compared to traditional ones.

The standard size of our window is 4' x 3'.

DOOR

VENTILATOR

VENTILATORS

Our ventilators have a modular construction. They are easy to fit, suitable for all weather, strong and durable.

FACTORY PARTITION

OFFICE PARTITION

PARTITION WALLS

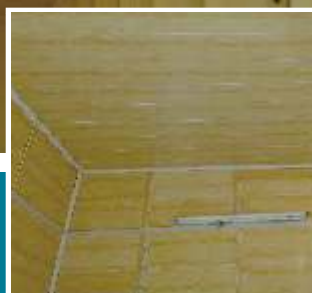

Partition Wall Panels are filled with PUF and cement. They are sturdy, strong and durable. Hence, they can be used in the construction of Partition Wall for interiors of offices, homes and showrooms. They can also be used in factories.

The customer can have a choice of coloured panels or different printing on panels. Customized panels are also offered, using various colours and designs.

Size available: 1mtr x 0.3mtr, 1.5mtr x 0.3mtr.

FALSE CEILINGS

Ceiling panels are available in a thickness of 7mm and lengths upto 3 metres. They can be printed in different colour shades as per the customer's requirement. No joints are required as they are continuous and can be filled with tongue and groove arrangements. They are light in weight and can be transported easily. They can also replace conventional ceiling patterns due to zero-maintenance and quick installation.

FALSE CEILING FOR OFFICES

ELEGANT FINISH

E-RAPID BOUNDARY WALL

STRONG AND STURDY BOUNDARY WALLS

BOUNDARY WALLS

Boundary Wall Panels filled with concrete are sturdy, strong and durable. Hence, they can be used in construction of Boundary walls for factories, warehouses, godowns, etc.

The customer can have a choice of coloured panels or different printing on panels. Customized panels are also offered using various colours and designs.

Size available: 1mtr x 0.3mtr, 1.5mtr x 0.3mtr.

CUSTOMER'S SATISFACTION

TTL endeavours to provide quality products that are distinct in design and pattern. Our products are fabricated as per the customer's requirements and specification, which are executed from designing to execution by our fully dedicated Project Team to the best of our customer's satisfaction.
