Bringing Polymers To Life

FOR IMMEDIATE RELEASE

Mumbai: June 5, 2017

TimeTech's 'LiteSafe' Composite Cylinders for LPG

The Company is engaged in manufacturing of world class Composite Cylinders for distribution of LPG under its brand "LiteSafe" and is exporting the same to over 26 countries across the world. 'LiteSafe' Composite Cylinders received overwhelming response from the users.

In so far as India is concerned, Company had first sold few thousand Cylinders to Reliance Gas some three years ago which had been successfully operating in the state of Gujarat. Subsequently, Oil Marketing Companies' bought several thousand Cylinders in 2kg, 5kg, 7 kg, 10 kg and 15 kg denominations for LPG distribution in state of Gujarat and Maharashtra on trial basis. Launch is expected any time soon.

It is heartening to report that only last week Reliance Gas has for the first time launched LPG in Composite Cylinders of 10 kg and 5 kg capacity in Pune (Maharashtra) for which additional quantities of Cylinders were bought. Encouraged by response / acceptance of 'LiteSafe' Composite Cylinders by the end user, several other private LPG distributors have initiated procurement of 'LiteSafe' Cylinders for country wide offering of LPG in Composite Cylinders.

Company is in advanced stage of capacity expansion from 700k p.a to 1400k p.a Cylinders to meet projected demand particularly from OMCs and private players in India. It may be noted that India's nodal Agency - Petroleum And Explosives Safety Organization (formerly CCOE) - has already approved 'LiteSafe' Composite Cylinders of 2 kg, 5 kg, 7 kg, 10 kg & 15 kg capacity for LPG distribution in India.

About Time Technoplast :

Time Technoplast (www.timetechnoplast.com) is a leading technology based innovative polymer Product Company. Over the years, TimeTech has emerged as a formidable player in the polymer space, with a product repertoire that caters diverse segments like Industrial Packaging, Infrastructure, Lifestyle, Healthcare, Composites and Auto Components related products. It focuses on replacing metals with polymers in high performance areas using innovation and latest technology. TimeTech services wide spectrum of user industry in each of its business verticals reducing sectorial risks and tapping new opportunity for growth. TimeTech is an aspiring Indian multinational having presence in India, Thailand, Taiwan, Indonesia, Vietnam, Malaysia, UAE, Bahrain & Egypt.

Man arrested for filming girl during ass ault, blackmail

A 28-year old from Solapur has been arrested by the Hadapsar police on Tuesday 30 for raping a 24-year-old fellow colleague. Both of them had come to Pune for training with a network service provider company in Magarpatta, where they befriended each other. However, during the last day of their session the accused tried to force himself on the victim after a couple of drinks.

In the process, he also filmed the incident and used it to threaten her. The victim, tired of torture and blackmail, decided to file an FIR at Hadapsar police station on May 24.

Police inspector Sangita Yadav of Hadapsar police station said, "The two were allegedly in a relationship during their training period. On their last day, after filming the incident, the accused sent the video to victim's relatives and

even uploaded it to Facebook."

He had apparently threatened the girl by saying that he had more such images and videos. He subsequently began blackmailing her money.

While initially the girl complied with the demands, he recently had started asking for a lot of money. When she could not afford giving him more money, she decided to confide in her parents, who aided her in filing the FIR.

The cops then laid a trap after they figured out the accused's routine. They finally nabbed him on Tuesday.

"The accused had even asked the victim to stay with him at a flat for a few days after their training got over. She obliged with the fear that he would upload the videos," Yadav added.

The accused has been charged under Section 376 for rape of the Indian Penal Code. —PMB
