

## FOR IMMEDIATE RELEASE

Mumbai : June 07, 2018

Time Technoplast has emerged as a leading producer of High Pressure Pipes and Corrugated Pipes for variety of applications including water, sewerage, effluent, industrial, etc. It already has healthy order book.

Company has now launched a new generation multilayer pipes for power / communication cable ducts with silicone in-lining. It has also developed associated components to offer as a complete package. These technology driven innovative products conform to international standards and are used for high performance applications. Such pipes/ducts are being introduced for the first time in the country and have substantial business potential.

First major order for this application has been finalized by the most reputed and largest EPC Contractors. Company has been able to bag this order for 175 kms of power cable ducts and its accessories (approx.Rs 40 crores). There are several other projects for similar product / application at finalization stage and Company is striving to secure sizeable part of oncoming demand.

Such power ducts are being manufactured for the first time in the country and will find multiple applications for Smart Cities and other advanced infrastructure projects.
